

# Weed Work Shifts

Potville Oil Distillery makes THC and CBD oils. For safety during an outbreak, each worker has a solo shift. Can you figure out each person's age and start time?

- 1) The eldest worker takes the shift right after Herb's.
- 2) Dr. Dankson starts earlier than MaryJane.
- 3) Dr. Dankson is 40 years old.
- 4) The youngest worker starts at 6 a.m.
- 5) The person who starts at 11:00 is either 40 years old or Herb.
